**Re: TRA Docket No. 2004-00306 – Complaint of XO Tennessee, Inc. Against  
BellSouth and Request for Expedited Ruling and for Interim Relief**

Dear Ms. Standley::

This is in response to the staff's data request of November 3, 2004.

The issue presented by XO is limited to circuits that are already in the XO network. Although XO originally requested a "one step" conversion of Global Crossing special access circuits to XO UNE circuits, BellSouth's refusal to accommodate that request made it necessary for XO to first provide the proper LOAs to convert all the circuits from Global Crossing to XO. XO now seeks a TRA ruling on whether BellSouth is required, as a matter of law, to convert an XO special access circuit to an XO UNE loop at a cost-based rate, as required by the FCC.

Very truly yours,

BOULT, CUMMINGS, CONNERS & BERRY, PLC
